

Take i-59 to the Ashville/231 exit. Turn right and follow 231 into Ashville. Turn right at the Shell station, go one block turn left, go to the stop light and turn right. That puts you back on 231. Stay on 231 as you come down a hill, there will be a school on your right and hwy 26 on your left. Turn left on hwy 26.

Follow Hwy 26 into Ragland, approx 13 miles. You will come to a stop light. Continue straight through the stop light. Hwy 26 and 144 merge at the stoplight. Follow hwy 144 to the dam. The dam ramp is to your left right as you come up a hill to the dam and can see the lake. You have to take a road to the ramp, its easy to see and follow, it has some speed breakers on it. Water is deep at the ramp, the marine police sit down there sometimes watching people violating the no wake zone, since they have a swimming area and picknick area there too.
